Environment Friendly Waste Print Consumable Recycling

**Customer Service and contact**

- Client makes direct contact with EOS in order to discuss the scheme – set up a centralised collection point, supply boxes and request a collection.

**For further information please contact EOS at:**

- info@eossolutionsltd.com
- or on 01306 631070

**Collection**

- The items are collected in the most environment friendly manner (least carbon footprint) by EOS’s own vehicles or a logistics partner.

**Receipt and Tracking**

- When collection request received EOS books the collection. Duty of care waste transfer notes and address labels will be produced and supplied by EOS at this time.

**Processing and recycling**

- Metals and materials other than plastics are fully recycled.

- Packaging materials (plastic and cardboard) are recycled.

- Remaining toner bottles & cartridges are granulated & reprocessed into high quality polymers.

- Polymers can be used in the manufacture of a massive range of products such as buttons, washing machine parts and games console casings.

- Toner is removed during this process and used in the manufacture of construction materials and safe flooring.

**Reporting**

- A certificate of recycling is produced (on request). This can be utilised for ISO14001 or EMAS accreditation and audit purposes. EOS can also provide regular reports.
